EXPERIENCE

Brickly.ai

02/2026 – Present

Calicut,Kerala

- Developed and maintained responsive web applications using **React.js**, **Next.js**, and **TypeScript** for internal and client-facing platforms.
- Built and deployed **company websites and advertising websites**, ensuring high performance, SEO optimization, and cross-device responsiveness.
- Contributed to the development of a **construction management software**, improving project tracking, workforce handling, and operational workflows.
- Worked on **ERP software modules** including finance, HR, and operations, enhancing business process automation and usability.

Exthgen Technologies LLP

06/2024 – 01/2026

Calicut,Kerala

- Built and maintained dynamic web applications using **React.js** and **Next.js** for both internal tools and client-facing platforms.
- Developed and optimized the **company's official website** with Next.js, focusing on performance, SEO, and responsiveness.
- Delivered custom **dashboards** and **management tools** for **construction industry clients**, improving project tracking and operational workflows.
- Created reusable UI components using **Tailwind CSS** and **Shadcn/UI** to ensure design consistency and faster development.
- Collaborated with cross-functional teams including developers, designers, and project managers to deliver scalable solutions on schedule.

EDUCATION

EMEA College of Arts and Science

2020 – 2023

BSc Computer Science

Completed Graduation in BSc Computer Science from EMEA College.

PROJECTS

Company Official Website - Exthgen 🔗

10/2024 – 11/2024

Technologies :-NEXT JS, Tailwind CSS, Shadcn UI

- **Developed a fully responsive, SEO-optimized company website** using Next.js to improve performance, accessibility, and search visibility.
- **Built reusable UI components** with Shadcn/UI and Tailwind CSS, ensuring scalable and consistent design across the application.
- **Collaborated closely with designers** to convert Figma designs into clean, accessible, and maintainable frontend code.

Brickly Web - high-performance web application built to streamline business operations

06/2024 – Present

Technologies :- React JS, TypeScript, Redux Toolkit, Tailwind CSS, Shadcn UI

- **Developed extensive business modules** covering Finance (Expenses, Income, Loans, Wages), HR & Workforce (Attendance, Leave, Deductions), Operations (Projects with Gantt charts, Tasks, Equipment, Vehicles), and Organization Management.
- **Implemented advanced reporting features** to generate actionable insights on expenses, attendance, and operational data.
- **Built a scalable and secure admin system** for managing organizations, companies, users, and role-based access control.
- **Designed a rich, responsive UI** using Material UI (MUI) and Radix UI with interactive dashboards and charts for improved user experience.

Vehicify Web - Modern Fleet & Logistics Management Platform

03/2025 – Present

Technologies :- React JS, TypeScript, Redux Toolkit, Tailwind CSS, Shadcn UI

- **Built a comprehensive transportation logistics web application** to manage vehicles, drivers, trips, and customer orders.
- **Designed an accessible, responsive UI** with Tailwind CSS and Radix UI, including mobile-friendly drawers and toast notifications.
- **Developed core modules** for trip tracking, driver and customer management, and order processing.
- **Integrated backend services** via Axios and leveraged Firebase for authentication and supporting platform features.

ERP Software - Comprehensive Solution for Business Management

Technologies :- React JS, Redux, Tailwind CSS, Material UI

- **Contributed to core business modules** including Sales, Purchase, Banking, Accounting, and Warehouse management.
- **Worked on a multi-organization system**, enabling seamless switching and management of multiple business entities.
- **Assisted in customization tools** such as the Invoice Designer and document management module.
- **Supported inventory and warehouse workflows**, improving item tracking and stock management.
- **Actively involved in ongoing development and maintenance** for the past 5 months to present.
